

Artificial Intelligence for all Judges and Lawyers: A Comprehensive Course

Artificial Intelligence (AI), previously the focus of science fiction writers, has become a reality. Nowhere has this been more sensationalized than in the courts, with highly publicized incidents of misuse of AI and succumbing to some of its current foibles, including so-called “hallucinations” – leading to the citation of cases that do not exist or that, if they do exist, bear no relationship to the purpose for which they are cited – to say nothing of “deep fakes” that threaten to torpedo longstanding evidentiary standards.

This 4-day, comprehensive course is tailored specifically to the needs of judges and lawyers, to provide them with a solid grounding in AI essentials as well as a variety of legal and policy issues.

During this course, you will learn to:

1. Recognize the utility of, and limitations on, Artificial Intelligence in the legal system;
2. Understand and articulate the ethical and legal challenges posed by AI;
3. Assess the impact of AI on judicial proceedings; and,
4. Develop strategies for integrating AI insights into judicial processes and law practice.

December 2-5, 2024
Pittsburgh, PA

Tuition: \$1,799
Conference Fee: \$0

To register:
judges.org/ai-2024

The NJC wishes to express its appreciation to the Thomas R. Kline Center for Judicial Education of the Duquesne Kline School of Law for generously hosting this course in Duquesne University's Power Center Ballroom, catering the opening breakfasts and daily “snack breaks,” providing IT support, and coordinating other logistics. The Kline Center's generous involvement in hosting this course has enabled the NJC to waive the \$499.00 conference fee typically charged to all attendees. The Kline Center will not receive any proceeds connected with this course.

The National Judicial College is an Equal Opportunity/Affirmative Action, ADA organization, and admits participants of any age, race, color, religion, gender, gender identity, sexual orientation, and national or ethnic origin.
